

Five weeks ago, we bought a seven months old Labrador retriever puppy from Rush Lake Kennels. The puppy, named Cody, is an outstanding dog. My wife and I love Cody. He is loving and well mannered in the house. Outside he will fetch and play as long as you want to throw. Cody has had some field training and will flush and fetch birds and is very good at recall.

Don and Julie are outstanding at training their dogs. Whether it is obedience or bird training, you could not find anyone better.

Don and Julie will patiently answer any question you may have; they were very patience with my questions.

The boarding kennels at Rush Lake Kennels are first class. They provide air-conditioning in the summer and heat in the winter. They take very good care of your dog while it is in their care. I would not kennel my dog anywhere else.

Their obedience classes are great; they teach you and your dog at the same time.

Whether you are looking for a trainer to teach your dog to hunt or obedience classes or a Boarding kennel you will be hard pressed to find a better place.

Maybe you want to buy a great puppy? Rush Lake Kennel is your place.

Don and Julie have a first class operation.

P.S. Cody is not for sale, he is already family.

Terry and Donna Wagner
